My name is Bradwell i live in Saint Cloud Florida, i am 22. I reconciled with christ on July 11 2014. Ever since I watched a vídeo of Darren describing the angel breakthrough revealing God's plan his life and watched all films it has completely changed my life forever. Watching Holy Ghost has shifted my life so much that now God is working in my life like never before. Few minutes ago I just got done praying for a man that was sitting in dunkin donuts. That's something I never done before in my life. And God's been revealing himself through dreams and visions ever since. He's been speaking to me through people I never seen or met before. For the Glory of God this film has been such an impact and I just want to thank God first and Darren for obeying the plan of God. If it wasn't for you obeying God's plan I wouldn't be here and my life wouldn't be changed forever. For all my life I've been raised in a doctrine where God is too strict and a God full of anger with also love but I knew something wasn't right. I knew that God wasn't some mighty being that is worrying so much about your physical body and what you gotta dress and what you can't wear and a lot of Christians they wanna do the job of the holy ghost but they don't understand that. I've found the real God that I've been looking for. God of LOVE. Everything that he does in our

Hey brother I live near St.cloud!!! I'm thinking of hosting it hopefully at my church in Orlando. That movie was amazing and God confirmed everything he showed me. I'm learning to follow the leading of the Holy Spirit. Like a child I'm learning a language.

Dear soul, don't forget to always capitalize the Name of the Holy Ghost (Holy Spirit). And did you mean on the sentence before last to say, "Thank Father, Son, and Holy Ghost (or Holy Spirit)," ?

After seeing the movie we went out in the streets in our city praying for sick people. A professional piano player got healed from pain and stiffness in hands and fingers. 15 years of pain gone!!!

Wow, such an amazing testimony! Thank you for this encouraging post!  
It's such a blessing to see people transformed by the lord's healing power! Yeah!

Just finished watching Holy Ghost with my wife and 4 kids (6, 9, 12 and 14). My 9 year old wanted to be prayed for afterwards so we did and he experienced heat in his hands and twitching and the power of the love of God. I believe the Holy Spirit is strengthening my whole family to display the Father's love in greater ways to all around us. I live in

Charlottesville, va and am trying to host a screening of the film and asking God to make it so.

Steve, I too live in Charlottesville Va. I just moved here in the last 6 months from California. I'm a widow of two children 22 and 11. I've been looking to make connections with other Holy Ghost/Spirit empowered families here. I knew that the Holy Spirit led me here to C'ville, by many manifested signs, to give both my daughter and I restoration and to breath new life and fresh fire into our home. Over the last couple of months, I've been in need of a Power boost after my move and was feeling a bit isolated. A long time friend "just happened" to direct me to the film Friday night. In raising my daughter, I feel led to an even stronger emphasis on a true living breathing constant interaction with God, because I think that is what is needed in the future world in front of her more than it ever was in the past. It is hard to find other families living that way in a world geared towards schedules and obligations left and right and the status quo. Not a lot of wiggle room for the Holy Spirit to move. After watching the film, I said, "I've got to find other people like myself, like the people in the film here in Charlottesville" ...So, when I noticed your post said you were from Charlottesville and were a family with kids my daughter's age....(well...you watched film).....consider us on board in helping you get a screening here..Let me know what we can do.

I was amazed of how well this movie was filmed artistically, the flow of editing, and finished with such craftiness with an extensive message. Christian movies have come along ways, and they are turning into something that someone who is in the "secular" can't say...oh that "Christian" movie. Keep on doing what you are doing w/films, I can't wait to see what you have next up your sleeve.

Just watched the movie last night. Today at church a woman told of a pain she has had in her shoulder for months that won't go away. I stepped out in faith and spoke to her

shoulder, the muscles and tendons in the name of Jesus and I felt the muscles release and I felt a pop and she was healed. Wow!! Praise God!! This movie was just the encouragement I needed to get going again. I'm so excited to be lead by Holy Spirit and bring His light, love and healing to a hurting world. Bless you all for making this film. Working on getting a showing in my church in Bethel CT.

I watched The Holy Ghost last night. I believe in the Holy Spirit and know I have Him dwelling in me. It made me feel so blessed to be in a church that teaches the truth and that I have that relationship with Him. What I mainly got from the film was RISK. I way too often stay on the safe side. This morning my 4 year old was singing "I have the power of the Holy Spirit" which she learnt at Faith Camp the other week and I suddenly felt very challenged. She loves this song, because she knows it's the truth, she freely uses the power of the Holy Spirit within her, she has healed more people than I have and she will tell everyone and anyone about the love of Jesus. At 4 she doesn't have that fear of getting it wrong or care what people think. Great film, definitely been challenged and it's time to take RISKS.

In Darren Wilson's latest film "Holy Ghost," he is out to prove something. He is out to prove that the Holy Spirit isn't an amorphous blob but a real Person really moving in the same way He moved in the book of Acts. He's out to prove that the Spirit is the the third person of the Trinity, and is real in the same way the other two Members are. Now anyone who is a Christian will agree to those things intellectually but as the first section of the film explains, there is a divorce in the application of that truth.

You've got your "Word" people who basically believe the Spirit is only moving when the Bible is read, or to convict people of their sin, but isn't doing any of the stuff they deem might be goofy like the miracles, signs, wonders, and experiential sort of things found in Acts.

And then you've got your "Spirit" people. Who believe all that stuff the Spirit did back then, He is still doing, and is doing it through regular people like you and I.

The main thrust of the beginning of the film is that these two groups

Watching God lead straight into Salt Lake City (locale of religious mindsets) touched my heart very deeply. I suddenly remembered my dream of being a reporter reporting what God is doing all over the earth and suddenly it started taking a very specific shape!... A film like this that focused on the Plain People and what Holy Spirit is doing there. I know people to talk to!! Can I have an address to send snail mail to for Darren Wilson?

In the middle of the film, I was so grateful to hear wise people talk about needing to be willing to make mistakes to learn to hear God well. I've struggled with confidence. I also

realized the Holy Spirit is THE game changer. I've struggled with feeling invasive in giving words of prophecy or praying for healing. Tears of repentance streamed down my face as I realized that Holy Spirit actually knows all about the people he sends me to, and what they need, and I've been discounting that he actually knows them even if I don't. As if he would send me to make them uncomfortable!!

And I loved the ending. The impossible. I really could relate to ministering to Mormons and Hindus very well because of my background. As an intercessor, I couldn't help celebrating both the impossibility of what happened and the shift that was set in motion for the future.

Can I have Todd White's permission to put, "Jesus didnt come to get you into heaven- Jesus came to get heaven inside of you" on a T- shirt?? It was so encouraging, The guy playing the guitar in the streets of India was like John the Babtist. I loved the guy who got his leg healed at the Buddhist park. I'll be praying for them to have that seed watered and grow until thier earth suit shed's away! I am asking The Lord to help me listen for the Holy sprit and He's been so good to use me and to bless others on His behalf through me-I need prayer because Im a public school teacher and sometimes I feel like the work load distracts me from being open to the Holy Spirit!

Keep on prayer walking through your school. I teach at a public school and God is doing amazing things. Salvations, baptisms in the Holy Spirit healings, miracles, encouragement, prophecies. All the glory to God. Miracles signs and wonders follow those who follow Jesus. Be salt and light.
